### SPECIAL INFORMATION:

- Please call the Recorded Avalanche Advisory at 406-587-6981 for the most current conditions or follow this link [Avalanche Advisory](#) for the online version.

*The southern Madison and southern Gallatin Ranges, the Lionhead area near West Yellowstone, and the mountains around Cooke City:* Storms during the last two weeks deposited a slab of cohesive snow on top of weak snow on most slopes and conditions are ripe for human triggered avalanches. Today the avalanche danger is **CONSIDERABLE**.

*The Bridger, northern Madison and northern Gallatin Ranges:* Human triggered avalanches are definitely possible today and the avalanche danger is **MODERATE**.

### Weather forecast (Press "Ctrl" and click to follow link)

**Today:** A 40 percent chance of snow. Cloudy, with a high near 25 and a low around 11. Wind chill values as low as -10. Total daytime snow accumulation of less than one inch possible with an additional 1 inch overnight.
